

ASTROS II WHITE

Hand-Held Flare

Code: 748601

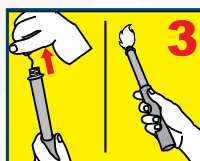

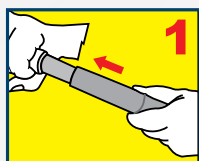

Made in Greece

- Emergency signal for collision warning, position marking and illuminating for day & night
- Easy and safe handling
- Bright white flame for at least 60 seconds, 15500 candela minimum
- Ideal for commercial vessels and recreational boats/crafts
- Safe for use near oil or petrol covered water

APPLICATION

Emergency signal for collision warning, position marking & illuminating for day & night.

INSTRUCTIONS FOR USE

1. Hold the flare by the grey grip with one hand and the white end with the other hand. Pull the flare from the white end until it is fully extended before use.
2. Unscrew the white end cap to reveal the activation cord with a small ball on the end.
3. Keep the flare downwind, and away from your face and body, and from other individuals/objects and pull the red ball with the cord sharply so as to activate it.
